

National In-Country Value Program

The National In-Country Value Program (ICV) is governed by the Ministry of Industry and Advanced Technology (MoIAT) and adopted by Mubadala Investment Company –a strategic partner in the program.

The ICV is a certificate issued to suppliers in which their contributions to the local economy are evaluated. This program will benefit manufacturers and service providers in the UAE by redirecting increased procurement opportunities from participating government, public and private institutions to the local market.

The ICV consists of Certification and Implementation.

- The ICV certificate is aligned between all ICV participating entities, thus, the suppliers can obtain one certificate, which is accepted by all participating entities.
- The ICV implementation is unique to each participating entity. Each participating entity will use the ICV certificate in their tendering process in its unique way, as per their own policy.

The successful implementation of our National In-Country Value strategy requires the cooperation and support of all our stakeholders.

To obtain your ICV certificate, please follow [this link](#) to learn more about the program, authorized certifying bodies and the required steps to commence the certification process.
